

Tom Lauck

Graduated 1993
Bachelor of Industrial Design

Drape-it

I am currently involved with a startup developing furniture for the many people who drape their day to day clothes over chairs, the end of bed or simply throw them on the floor. This lifestyle approach is commonplace, yet largely uncatered for in

the furniture market. We chose to address this by designing a variety of furniture pieces specifically to suit this need, and believe we are offering style and improved performance over current improvised solutions.

CV

- 2008 to Present - Self Employed at Eco Active Pty Ltd
 - 2003-2008 Arketype - Consultancy
 - 2001-2003 Exhibition Services - Consultancy
 - 1997-2001 Andrew Rogers Industrial Design - Consultancy
